Filed via ECF

*Re: Nypf, et al. v. JPMorgan Chase & Co, et al.,*  
Case No. 1:15-cv-9300

Dear Judge Schofield:

The *Nypf* Plaintiffs respectfully request approval to file the letter in response to Defendants August 22, 2020, letter motion (Dkt. Nos. 624, 627, 628) under seal and in redacted form, pursuant to Rule I.D.3 of Your Honor's Individual Rules and Procedures for Civil Cases ("Individual Rules").

The letter response contains references to information designated by Defendants as confidential/highly confidential pursuant to the Stipulation and Order of Confidentiality entered by the Court on November 13, 2017 (Dkt. No. 249). In accordance with this Court's Individual Rules, Plaintiffs have provisionally redacted references to material designated as confidential/highly confidential by Defendants. Pursuant to Rule I.D.3 of this Court's Individual Rules, however, the party "with an interest in confidential treatment bears the burden of persuasion." Individual Rules, Rule I.D.3. In this case, Defendants, as the parties that made the relevant confidentiality designations, are those with an interest in confidential treatment. Accordingly, Defendants should "promptly file a letter on ECF within two business days in support of the motion," explaining why they seek to have the joint letter filed in redacted form pursuant to Rule I.D.3 of this Court's Individual Rules.

Plaintiffs further respectfully reserve the right to challenge the Defendants' confidentiality designations in the future pursuant to Stipulation and Order of Confidentiality. Nevertheless, Plaintiffs submit this letter consistent with the applicable procedures set forth in the Court's Individual Rules where the filing party is not the party asserting an interest in the confidential treatment of the redacted information.

In accordance with Your Honor's Individual Rules and the Confidentiality Order, the *Nypf* Plaintiffs respectfully request that this Court grant it permission to file the letter opposition under seal and in redacted form.

Hon. Lorna G. Schofield
